

# PALLET DROP SAFETY GATES

Mezzanine Safeti-Gates invented the first dual-gate safety system, the Roly® mezzanine safety gate, over 40 years ago. We continue to focus on providing fall protection solutions for pallet drop areas on elevated work platforms in manufacturing, material handling and distribution facilities.

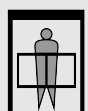

## MODELS FOR ANY APPLICATION

We've installed thousands of pallet drop safety gates in facilities throughout the world. We offer custom-engineering design services in addition to our standard single and double wide models:

- Roly®
- Rack Supported
- Tri-Side
- Open Top
- Pallet Flow
- Pivot and High Pallet Pivot
- TCA

# FALL PROTECTION FOR ANY ENVIRONMENT

**Mezzanine Safeti-Gates** is committed to providing durable, ergonomic safety gate solutions. Our strength is designing and manufacturing dual-gate systems for any elevated platform on which workers need fall protection.

Every one of our safety gate systems meets or exceeds **OSHA** regulations, **ANSI** standards, **IBC** codes and **CCOHS** regulations.

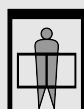

## OPTIONS FOR ALL SAFETY GATE DESIGNS

- Single or double wide standard sizes
- Custom sizes
- Stainless steel construction
- Kick plates
- Product containment netting
- Power operation with remote control or push button operation
- Photo eyes, RFID sensors
- WMS integration
- Custom paint color
